to arrange for the dispensary at Mandagadde being opened as early as possible in view of the necessity for medical aid at the place.

Rec'd 15-11-12

(18)

2 In May last year, the Wesleyan Mission made an application for grant-in-aid towards the Construction of a dispensary & Maternity at Mandagadde; but the application was withdrawn as the D.B. could not make any grant as they had decided to open a Dispensary themselves at the place. The opening of the Dispensary has been sanctioned by Govt. The Wesleyan Mission now request that a building grant of 5000 Rs may be made to them, as they intend constructing a Maternity & Hospital for women & Children.

3. Attention is invited to the notes in the previous file 234 of 1910 as to the necessity of maternity hospitals in the Malnad. The Govt were inclined then to make some grant-in-aid towards the cost of

NOTE.—Contn. sheet.

GPB—65,000—17-6-12.

hereunder :—

"At first, Rev A.E. Nightingale proposed to build a dispensary and maternity at Mandagadda and asked for (1) half the building cost & (ii) not less than 1/3rd of the cost of upkeep ie Rs 50 per month for the maternity & Rs 80 per month for the dispensary

This application was however, withdrawn by him as the Shimoga District Board decided to construct a dispensary at Mandagadda. This proposal was also sanctioned by the Govt; but it is yet to be opened.

Now, Rev. A.E. Nightingale makes a second application for only a building grant of Rs 5000, being half the cost of the building according to the plan in the file. There is no request for a grant towards the upkeep; but it is sure to be pressed in course of time.

As to whether the grant may be given, both the utility & the necessity of the proposed institution have to be considered. The usefulness of the maternity is undoubted, though its extent is likely to be limited at least to begin with. For, Mandagadda has a population of only 638: and the institution can serve only a population of 4308 within 10 or 15 miles round Mandagadda. It will be further limited by the working of the L. F. dispensary at Mandagadda itself

19:

It is true that generally speaking, the population of the Malnad is decreasing, one of its causes being the neglect of Women in child-birth. To meet this general difficulty successfully, a Maternity organized partly by private effort would be a blessing.

20. But is the place where it is proposed to locate it conducive, by its situation & surroundings, to the maximum benefit possible? A definite negative seems to me to be the only answer; for, far better & more important places, less central, can be chosen for the purpose — such as Theerthahalli. It is desirable to inquire further on these lines and to say that the Govt. will be prepared to consider the grant of reasonable aid to this private effort if a more populous area can be selected for the purpose.

21 In any case, Conservancy help from the District Funds is unobtainable as the balance shows a tendency to go down: It was 30,586 on 1/7/12 & is estimated to be only 26,900 on 1/7/13 as against an estimated revenue of 103,173 Rs:

22 The question of (1) the source for funds & (2) the dispensing of reasonable conditions to this grant, may be examined after the further views of the Revr are ascertained. The D. B. of Shimoga may also be consulted about the scheme & funds:—

Enc. to Paper flagged

S

This is an application from the Revd. A.E.Nightingale of the Wesleyan Mission, Shimoga, for a building grant of Rs.5,000 towards the construction of a Maternity and Hospital for women and children, which he proposes to erect at Mandagadde in the Tirthahalli Taluk at a cost of about Rs.10,000.

S.

2. The Senior Surgeon, in forwarding the application to Government for favourable consideration, recommends some grant being kindly made, as the starting of a Maternity and Hospital for women and children by the Mission is a charitable concern.

T

3. The Deputy Commissioner, Shimoga, who was demi-officially consulted on the subject, considers a Maternity Hospital very necessary in the Malnad and states that the Institution would serve a population of 4308 (people residing within about 10 or 15 miles of Mandagadde by road or about 5 or 6 miles if in the interior) and recommends the building grant asked for, as he has no doubt that people of all denominations would be given the benefit of the Institution. He further suggests that the Maternity Hospital should be asked to undertake to give practical instruction to three midwifery pupils every year.

4. The question of locating the building in a more central locality, such as Tirthahalli, was raised and discussed in the office notes.

5. While at Tirthahalli during my Malnad tour in March last, I discussed the question with the local authorities and the public. Before arriving at any final decision, I also asked for information as to whether the Hospit-

al

/16

in question would be willing to train 3 to 6 midwives every year and whether the Mission authorities would give an undertaking that the Institution in question would not be used for proselytizing purposes.

Paper under disposal

6. With reference to this, the Revd. D.A. Rees, General Superintendent of the Wesleyan Mission, Bangalore City, has represented that, after the Hospital is fully equipped the Mission would be ready to do all they can to meet the wishes of Government in the matter of training pupils in midwifery on the understanding that Government will provide the necessary accommodation and scholarships for the pupils and that the past history of the work of the Mission furnishes the guarantee that the religious views of all patients would be respected. His letter dated 30th May gives full particulars.

Page 12 of notes

7. The Financial Secretary who was consulted with reference to the question of funds, states that, if the Mission agree to build a dispensary and maternity at a cost of about Rs.10,000 in a place in the Malnad to be approved by Government and to be worked on the lines suggested in my note dated 17th May 1913, there would be no objection to pay half the estimated cost of the building as a grant-in-aid. He adds that the plan and estimate of the building should be approved by Government.

(vide para 5 of this note)

Pages 13 & 14 of notes

8. The Second Councillor considered that an enquiry about the place at which the Hospital can best be located may be made before final orders are passed.

9. I have since further discussed the question informally with both the Councillors. I do not consider it desirable at this stage to make any change in the location of the Hospital which may be constructed at Mandagadde as proposed by the Mission authorities. The Councillors do not seem to have any special objection to the grant of Rs.5,000 being made for the purpose.

10. I now solicit sanction to a grant of Rs.5,000 for the proposed building subject to the following conditions and limitations:-

(1) that the Mission authorities will train 3 to 6 midwives every year, if desired;

(2) that the plan of the proposed building is approved by Government; and

(3) that the work is carried out within the next 18 months.

11. The grant shall be equivalent to half the cost of the building subject to a limit of Rs.5,000.

road &c is estimated at Rs 23189 (the main building & Sally costing Rs 19091). It is stated that the first stage of the Scheme will comprise all the clearing works and one half of the main building costing in all Rs 13000 but that Mr Nightingale is prepared to undertake the whole Scheme on a further grant of Rs 5000 (making the total Rs 10000/-) is sanctioned by Govt The Dy Comr is of opinion that it is preferable to have the whole Scheme carried out so as to have a well equipped and Spacious Hospital from the commencement & Govt can see their way to assure a further grant of Rs 5000/-

(105) It is further reported that it is necessary to open a new approach road to the proposed building through S. No 106 (vide plan) from the main road and that the cost thereof including compensation for the land will come to about Rs 600 and that Mr Nightingale is agreeable to pay Rs 300 on that account. The balance of Rs 300 is requested to be given as a grant to the DB Board (which will have to maintain the road) for the purpose. It is stated that the net cost to Govt will be only Rs 250 as much as Mr Nightingale has agreed to part with about 3½ acres

NOTE—Contn. sheet.

Enclosure No. 2

SUBJECT.

Recommending sanction of some grant for the starting of a maternity Hospital for women and children by the Mission in Mandagadde.

Encl. to med. file 79-12 Sl 1

2

Letter dated 10th October 1912 from the Reverend Mr. A.E. Nightingale, Shimoga, to the Senior Surgeon, Mysore Govt.,

I have the honor to submit herewith a plan of a Maternity and Hospital for women & children which I propose to erect in Mandagadde in the Tirthahalli Taluk of this District.

The need for such an Institution becomes more and more urgent every year. The recent census reveals the alarming depopulation of the Malnad and the Dewan in the Representative Assembly three years ago in answer to a question relating to depopulation accounted for the decrease as being largely due to difficulties at child-birth. The late Senior Councillor, to whom I referred the suggestion to establish a Maternity in the Malnad, warmly approved of the scheme and promised his help and the late Senior Surgeon was actively sympathetic.

The Maternity will be equipped with everything necessary to ensure success and properly qualified persons will be in charge.

In a village like Mandagadde building rates will be unusually high and the Maternity with accommodation for the Doctors and Nurses and necessary out houses cannot possibly cost less than 10,000 rupees. I have the honor to ask you to help me with a building grant of five thousand rupees.

Deputy Commissioner's Office,

D.O. No. 070 Shimoga,

Dated Shimoga, 14th January 1913.

Dear Sir,

Your D.O. No. 4902/Med 79-12-2 dated 11th January 1913.

A maternity Hospital is very necessary in the malnad but it can only be availed of by people residing within about 10 or 15 miles of it by road or about 5 or 6 miles if in the interior. In this view the Institution will serve a population of 4308.

2. I would recommend the building grant asked for as I have no doubt that people of all denominations will be given the benefit of the Institution but I would impose another condition that the maternity Hospital should undertake to

give

give practical instruction to 3 midwifery pupils evry year.

3. Vandagadde is included in Lingapura and its population is 638.

Yours sincerely,

K Srinivasaiya

DIARY No.....

1912-1913
SECTION Medl.
FILE No. M-
SERIAL No. 1.

To
The Chief Secretary
to the Government of Mysore.
Bangalore.

Sir.

Your letter No 5256 dated May 22nd addressed to the Rev A. E. Nightingale Things with reference to his application for a building grant for the hospital which he purposes erecting in Mandagadde, has been forwarded to me as General Superintendent, for reply. I regret that, in consequence of the absence of Mr. Nightingale in camp, my absence from Bangalore, and the railway strike, there has been some delay.

With regard to your enquiry as to our willingness to train midwives, I have the honour to state that we shall be glad to do all we can in this respect. Our plans did not contemplate this department of work, but when we have our full equipment of a lady-doctor, in addition to the European lady-nurse now here, and we have everything in working order, we shall be ready to do what we can to meet the wishes of Government.

We take it for granted that Government will be prepared to provide the necessary accommodation for the women they send and that suitable scholarships will be forthcoming.

In reply to your request for a guarantee that the institution will not be used for proselytizing purposes, I have the honour to point out that no such guarantee has been required in connection with our two existing hospitals or any other of our institutions. I hope I am not unjust, but I cannot but read into this request an implication which we, as a Mission resent. The Wesleyan Mission has been at work in the Mysore State for more than seventy years, and has, at first alone, and later, in cooperation with Government worked honourably in educational spheres. Latterly we have endeavoured to assist in supplying the need for medical aid among the women and children of the State.

The medical work already being done in Mandagadde and the neighbourhood, which we desire to extend and make more efficient, has been prompted solely by the desire to meet the crying need for medical help among the women of those remote parts, and to do something to stay the alarming infant mortality which prevails. These needs have appealed to us as Christians. Our appeal for help is addressed to Christians in England and has been responded to. The work done in

this institution, as in all others, demanding in every case considerable self-sacrifice, will be prompted and maintained by the Christian spirit. This is clearly understood by the people of the neighbourhood, who have shown their appreciation and confidence by subscribing liberally towards the project.

If the request of the Government simply means that the religious rites and scruples of all patients who come under our care will be respected, and that no unfair means will be used to lead them to change their religion, I trust that the past history of the Wesleyan Mission supplies such a guarantee.

We, as a Mission, are desirous to do what we can in philanthropic and Educational work, for the benefit of His Highness' subjects, and we believe we have facilities for such work which no Government can command. In our efforts we claim both the assistance and confidence of the Government, and hitherto they have not failed us

I have the honour to be

Sir

Your most obedient Servant

D. A. Rees.

forwarding a letter from Rev. Mr. A. E. Nightingale of Shimoga furnishing particulars in regard to the Maternity and Hospital to be established at Mandagere.

Encl to med file 79-12 82:8

Letter dated the 15th August 1913 from the Rev A.E. Nightingale, Shimoga, to the Senior Surgeon in Mysore, Bangalore. 16

I have the honor to acknowledge your communication of the 23rd July last in which you intimate that the Government is willing to make a grant-in-aid of five thousand rupees towards the building of a Maternity and Hospital for women and children in Mandagadde provided the Wesleyan Mission authorities are prepared to respect certain conditions referred to in your communication above referred to.

In reply, I have the honor to state that the Wesleyan Mission would be prepared to train from three to six midwives every year if desired;

2. A plan of the proposed building would be submitted to Government before construction is started and the approval of the Government first obtained in regard thereto;

3. The work would be carried out within eighteen months of the above date.

4. It is to be understood that the 5000 rupees granted by the Government is intended for the hospital premises only and that Government will provide for the accommodation and scholarships of such women as it is pleased to send to Mandagadde for training.

To. The Deputy Commissioner,
Shimoga.

Dated 26th November 1913.

Sir,

I have the honour to acknowledge the receipt of your memo No. 705 dated 23rd October 1913, in which you ask me to furnish you with certain information relating to the proposed Maternity to be erected in Mandagadde by the Wesleyan Mission.

I have the honour herewith to state that the Wesleyan Mission is prepared to train from three to six Midwives every year if desired by Government to do so, provided the Government is prepared to find the necessary accommodation for the said Candidates for training and to furnish them with Scholarships during that period.

Further, I have the honour to submit herewith a plan of the proposed building. As funds at our disposal are insufficient at present to enable us to undertake the whole building, we propose to build up to an outlay of 10,000 rupees at first. Thus entitling us to the Grant-in-Aid of Rs 5000/- already sanctioned. The Scheme will, therefore, involve the erection of the rooms numbered 1, 2, 3, 4, 5 and 6 with rooms corresponding on the upperfloor together with godowns and a kitchen.

I have the honour to ask that you will be pleased to secure the Grant-in-Aid as soon as possible, as I desire to take the building work up without delay.

I am, Sir,
Your most obedient Servant,
Sd. A. E. Nightingale.

Bangalore.

Sir,

I have the honour to reply to your letter No. 6565/Med 79-12-13 dated 29th December 1913 on the subject of the Maternity Hospital at Mandagadde proposed to be opened by the Wesleyan Mission.

2. The site of the proposed hospital had been inspected by me before I wrote my letter No. 123 dated the 29th November 1913. I consider the site as well as the plans to be quite suitable.

3. The plans already submitted do not include the two out houses which have already been built and are now practically complete. One of these consists of kitchens, box rooms &c., and the other is intended for the accommodation of the Indian Hospital Staff. The European staff will occupy some of the upper rooms in the main building when completed.

4. A rough plan of the outhouses and a ground plan showing the relative position of the hospital and outhouses with reference to the Travellers' Bungalow and the adjoining lands, received with Mr. Nightingale's letter dated 30th January 1914 (Copy enclosed) are herewith submitted. With this letter

letter Mr. Nightingale has also sent an abstract of the estimates ~~for~~ both for the main building and the outhouses. This is also herewith sent. From this it will be seen that the cost of the buildings will be as follows:-

Main building (when completed)	Rs. 19,091.
First godown.	1,455.
Second do.	1,643.
Total.	22,189.

The cost of the hospital will also include the following items which brings up the entire outlay to Rs. 23,189

Land	200
Well.	450
Road.	350
Total.	1,000

One half of the main building, and all the other items shown above has been undertaken immediately. In fact the land been acquired, two godowns are practically complete, a well has been sunk, and materials are being collected for the main building. The outlay for the first stage of the proposal would thus be somewhere about Rs. 13,000.

5. The land survey No. 104 has been acquired by the Wesleyan Mission. It is elevated and well-drained-ground and quite fit for building purposes. The second class Travellers' Bungalow at Mandagadde situated in Survey No. 105 will be to the right of the hospital, both facing the Shimoga-Thirthahalli Road. Between the road and Survey No. 104 come two wet fields. A portion of Survey No. 104 lies right in front of the Travellers' Bungalow. The original idea of the Mission authorities was to take the approach road to the hospital through this part, but in my opinion this part of Survey No. 104 should be acquired and added to the Travellers' Bungalow compound. It is the only suitable place for pitching tents; and allowing any private rights there would be highly inconvenient. The vegetarian kitchen has actually been constructed in Survey No. 104, and the Travellers' Bungalow well is also situated in it. Mr. Nightingale has consented to part with the ground on which the kitchens etc., stand and also the portion in front of the Travellers Bungalow on condition of Government securing for the Hospital an approach road direct from the main road through the paddy fields.

This would be most desirable from the point of view of both the hospital authorities, and the public resorting to the Hospital as well as of persons occupying the Travellers' Bungalow. A strip of land 150 yards by 10 yards at one extremity of Survey No. 106 will have to be acquired for the purpose. The cost of this, estimated at Rs. 100 per acre, will be Rs. 31/-, and the owner has consented to give up this bit of his land (about 12 guntas) on payment of compensation at the above rate. The total cost of making the road including the cost of acquisition is estimated at Rs. 579/-, say Rs. 600/- in round figures. Mr. Nightingale has at my suggestion agreed not only to give up the extent of land required out of Survey No. 104 (about 3½ acres), but also to pay Rs. 300/- towards the cost of making the road. I trust the Government will consider this to be a fair proposal and sanction the acquisition of the land required, and also give a grant of Rs. 300/- to the District Board (who will have to maintain the road) towards the cost of making the road. The value of 3½ acres of land to be acquired and added to the compound of the Travellers' Bungalow (maintained from provincial funds) will be not less than Rs. 50/-, and the net cost would be only Rs. 250/-. On receipt of Government sanction to the proposal I shall submit the necessary Land Acquisition papers through the Revenue Commissioner.

6. Behind Survey No. 104 is Gomal Survey No. 91 measuring 51 acres 22 guntas. I have selected a portion of this as the site for the quarters to be built by Government for midwives under training, and I am in communication with the Executive Engineer in regard to the preparation of plans and estimates for these quarters.

7. All the above proposals can be clearly understood from the sketch prepared by the Amildar of Thirthahalli, which is also herewith submitted.

8. From Mr. Nightingale's letter it will be seen that he would like to undertake the whole scheme once for all and this he would do if he could have an assurance that the Govt would give him ~~give~~ a further grant of Rs. 5000/- making a total grant of Rs. 10,000/-

out

out of the entire outlay of Rs. 23,189. If the Government could see their way to give him this assurance I think it would be very desirable, as some unnecessary expenditure could be avoided and we shall have a well-equipped and spacious hospital from the commencement. Mr. Nightingale however does not want a consideration of this to stand in the way of his soon getting the promised grant of Rs. 5000/- for the first stage of the scheme, as he has nearly come to the end of his available resources and wants money immediately to go on with.

9. The proposals for which I have the honor to seek the early sanction of Government are accordingly the following:-

(1) Final sanction of the grant of Rs. 5000/- for the first stage of the proposal and approval of the plans;

(2) Sanction to the acquisition of about 12 guntas of land for an approach road and a grant of Rs. 300/- towards the cost of the road, in consideration of the addition of about 3½ acres of land to the Travellers' Bungalow property.

The request for an assurance that a further grant of Rs. 5000/- would be forthcoming when the Mission authorities are in a position to take up the final stage of this scheme may be considered at leisure. If sanctioned, the money would be required only during the next financial year.

10. The plans returned with your letter under reply are herewith resubmitted.

I have the honor to be,

Sir,

Your most obedient servant,

Offg. Deputy Commissioner,

Shimoga District.

Compd

Enclosed 79-12-14

34

From

The Rev. A.E. Nightingale,

Shimoga.

To

The Deputy Commissioner,

Shimoga District.

Dated 30th January 1914.

Sir,

I have the honour to acknowledge the receipt of your letter No. 1315 of the 28th instant and in reply send you herewith a plan of the outhouses connected with the Maternity Hospital in Madagadde together with an abstract of the detailed expenditure connected both with the main building and the said outhouses. The ground plan shows the relative positions of the two buildings.

As I pointed out in my letter of the 26th of November last, our ~~friends~~ funds are altogether insuffcient to enable us to complete the whole scheme. We are not even able to proceed ~~fu~~ further with the first part of the building as the money at my disposal is now exhausted and I am depending solely upon the disbursement of the 5000 rupees already sanctioned. The work is in hand but will come to a standstill shortly through lack of funds.

It is my intention to approach the Government for an additional grant of aid of Five thousand rupees to enable me to complete the whole scheme, which it will be seen, will involve an expenditure of ~~Rs~~. 23,000 rupees. I am anxious however that this second appeal shall not stand in the way of the early disbursement of the Five thousand rupees now sanctioned.

I wish it were possible to undertake the whole scheme now, while I have a contractor and workmen on the spot but I cannot venture so far as that ~~with out~~ without an assurance that an additinal grant in aid from Government would be forthcoming.

I have etc.

Sd/ A.E. Nightingale.

The axis to which the godowns will
are indicated on the plan. The
55 staff will occupy some of the
in the main building
